HONGRONG, JULY 28RD, 1878.

Our correspondent "Gardener" calls at tention to a subject of considerable importance. Now that efforts are being made on a large scale to plant this island with trees, precautions should at the same time be taken to prevent the Government scheme of afforestation being rendered ineffectual by the destructive predilections of a certain class of the Chinese population. If we are to have woods and forests the young trees must be watched and protected. It is not so very long since that a boat-load of people from the opposite mainland were caught in the act of cutting down trees in Hongkong for firewood. The hill sides in the vicinity of their own two knots per hour. Whilst in Mantong Bay dwellings had no doubt been rendered perfeetly bare, and they had come across the water to forage for firewood in this Colony. It is not likely that the above is a solitary

greatest foes to growing trees and shrubs are the local grass-cutters. These people are fowls, ducks, and fruit. Left on the 18th inst. generally very poor and they receive permission | and had light moderate winds from S.E. to N.E to cut the long grass on the hill slopes to sell or use as fodder for cattle. Unfortunately they make this permission the cover for a serious mid upon young and growing trees, to say nothing of a wholesale destruction of ferns. They do not venture to take large branches. Their plan is to break off the lower branches of the fir trees and leave them on the ground until they are withered and drie 1, when they can safely remove them as dead years, and the trees grow up shappless in consequence. There is also another peril to which young trees are exposed. The young leaves and shoots, and thus the progress of many promising trees, is arrested. The goatherds should be forbidden to take their flocks on the planted portions of the hills until the trees have attained a considerable size. The work of tree-planting will been done. We are glad to notice, too, that peninsula. The road leading from the wharf and naturally their surplus stock is not large. The residents generally who possess gardens are quite prepared to co-operate with the Government in carrying out its afforestation scheme, and the distribution of seedlings, young trees, and seeds to them for the purpose of forming avenues along the public roads in Kowloon would be a politic measure; We should also be glad if some effectual check could be imposed on the mischievous activity of the grass-cutters on this side of the water.

We are glad to hear, through "Philo-Coreanus," that Monseigneur Riber has oscaped with his life from Corea. The Hon. C. May said-The Ordinance was made to carry, on honest trades and it must be carried out. If a person gets up his anchor without a clearance, then he is broaking that part of the law which save that the junk shall be torfeited and the master be imprisoned for seven days. The Magistrates inflict that punishment upon you; but they would recommend to H. E. the Governor that a fine of 84 be inflicted in line of the bont baing forfoited. The Nellie arrived here from Chefoo in October, 1875. Brown and Thompson on their arrival came to me and said that they had built the schooner in the hope that I would fit them out with provisions and goods, as they had heard that a good thing was to be made on Chanter island. I told them that it was much too late for such a small craft to go North, but that if they would remain over the winter I would find them some employment and give them what they required the following year. This they agreed to, and being both handy men, they had good employment as sail-makers in the Government Yard here. Early in August, 1876, I fitted them out for the voyage to Chantar, sending them two Chinese who said they understood trapping. The object of the younge, was to trade along the coast for sables, and to trap them on the island during the winter, for which purpose

advised them to take a few natives from the mainland, either Toongoose or Giliaks. This they appear not to have done. They took but little fresh provisions with them, as they were told that deer were very plentiful on the island, I think it only right H.B.M.'s Consul should make some inquiries as to what has become of the proceeds of the schooner and cargo, which I am informed have been sold by the Russian authorities. I know for certain that my accounts, &c., were found with the schooner's papers, but no notification was given to me relative to the sale of the best and cargo, neither was I informed of the disastrons ending of the affair. - I am, dear Sir, your obedient servant. H. E. the Governor has been obliged to postpone his visit to Bangkok to invest His Siamese Majesty with the Grand Cross of the Order of St. Michael and St. George, owing to the non-ON SHANGHALarrival of the insignia, expected by last mail. The Penang Gasette of the 3rd instant states that the Auditor-General, at present in Penang, has discovered that the defalcations in the Province Wellesley Magistrate's Court amount to

The latest news from Acheen is more tranquilising, but very alarming rumours have been current in the bazaars hers and in Penang of the state of affairs there seems to have been a scare at one time in Acheen itself! But little is. known of what actually happened. The Achinese appear to have suddenly descended from their hill fastnesses in very large numbers and to have advanced into dangerous proximity to the Kraton and other Dutch stations on the coast, Severe fighting, it is said, took place, but the Datch troops held their own, and large reinforcements, Hongkong and Whampes Dock Company's orders entrusted to us will receive prompt attenhurried in hot haste from Java, have now arrived." We learn, through the courtesy of the Consul General for the Netherlands, that a telegram has been received to the effect that the excitement which lately prevailed has subsided, and, though attacks by the Achinese were anticipated, nothing of a formidable nature has occurred, and the natives have retired to their fastnesses.

It was fairly demonstrated in the Botanical Gardens on Friday afternoon, that a python, however harmless looking, may not be worried with impunity, It appears Mr. Swensen, a Swede, who has late y got employment in the Gardens as a head gardener under Mr. Murton, entered the cage of the python, and, while showing to a friend who was with him the easy control which he could exercise over the lethargic animal. commenced to kick it on the bead, a treatment which the animal bors for some time with considerable equanimity, but as the annoyance became more formidable the python roused itself and quickly coiled itself round the gardener's body. and had well-nigh succeeded in squeezing the life out of him before assistance arrived in the shape of Private John Adolphus of H. M. 28th Regiment, who very pluckily seized the snake, and, by sheer strength, forced him to let go. The "poor native" seems to enjoy an intelligent acquaintance with the means of obtaining money for his needs, regardless of any strict sense of honesty equally with his London prototype. A Malay syce demonstrated this fact a few days ago. Feeling that money was necessary, he waited upon a friendly diamond merchant-a countryman-who is in the habit of obliging his friends, when security is coffered, and, upon depositing two large boxes, of which he had lost the keys, and one of which took ten men to lift, said to contain money and other valuables, he obtained a loan of \$125 from his trusting friend, who was perfectly entistied of the bone: fides of the transaction, the little episode of the losing of the keys having been perfectly explained away. The loan would, it was promised be repaid on the morrow, but as days passed away and the faithless syce did not put in an appearance, the diamond merchant grew anxious and applied to the police for advice. The hoxes, at the cost of much trouble, were removed to the police station, and when foroibly opened were found to

to have been perpetrated on the 9th instant. It appears a Chinese wedding was being celebrated in the house in China street on that day, and the boy who was murdered was the nephew of bride, and was brought from Bangkok by his mother to be present at the marriage. About 6 p.m., when those assembled sat down to dinner, the boy was missing, and a diligent search was made for him throughout the house and its vicinity, but in vain. The police were communicated with, and a Chinese boy who was present at the wedding having informed them that he had last seem the missing boy in the company of a Malay, named Ibrahim, the latter was at once arrested, and though he professed total ignorance of the matter, upon being searched, \$50 in notes were found concealed. upon his person, for the possession of which he could not satisfactorily account, and he was con-sequently detained in custody on suspicion Yesterday, at 4 p.m., the dead body of the missing boy was discovered in a but at the foot of Mount Palmer Hill. The deceased, who was about 12 years of age, had evidently met his death by strangulation. The boy, at the time of his disappearance, were two gold bangles on his wrists, and these have since been found, having been pawned at a Chinese pawn shop on the same day by a Malay, who gave the name of Ahchee, an received \$50 in silver on the pledge. An inquest upon the body of the deceased will be held to

contain not gold or jewels-but sand. That syce

is missing.
